Overflow protection

Vacuum gauge in kPa, mmHg and Bar, colour coded

Illuminated on/off switch meets EU standard EN ISO 10079-1

Ergonomic vacuum regulator

Casing is made of very sturdy, unbreakable, fire retardant material with UV protection

Change-over valve shift the vacuum from one jar to the other with a single move – optional

Jar holder is equipped with suction circuit holder

The stainless eurorail ensures maximum flexibility. You can attach up to four jars of any size and/or any other accessories needed

MAKES LESS NOISE THAN YOUR PC!

A SPECIAL SYSTEM OF NOISE AND VIBRATION DAMPENING FOR AN EXTREMELY QUIET AND SMOOTH OPERATION WITH AN INCREDIBLY LOW NOISE LEVEL OF

39,4 dB

Non-marking casters with safety brakes.
Antistatic casters - optional

VICTORIA VERSA

The most popular high performance model of Victoria especially suitable for wards, operating rooms, recovery rooms, ICUs, obstetrics and endoscopic applications, etc.

VICTORIA LIPOS

High performance solution designed particularly for liposuction and operating rooms.

VICTORIA PORTABLE

Quiet and effective suction unit for medical practices, wards and endoscopic applications, as well suitable for fast suction in any situation.

VICTORIA THORAX

A suction unit specially designed for common use as well as for thoracic and abdominal surgery drainage and intensive care. The system can be used for long-term up to 30 days continuous drainage.

Thanks to a unique patented solution Victoria Thorax enables full suction output even during drainage.

VICTORIA PORTABLE WITH EURORAIL

Advantage of the unit is that instead of regular holder, unit is equipped with eurorail 25 x 10 mm this allows you to use your holders and jars.
